TECHNOLOGY

TECHNOLOGY

COBALT® VX

UNPARALLELED FIT AND COMFORT

Our premium technology provides temperature management, advanced support and enhanced flexibility with an engineered fit for optimal performance.

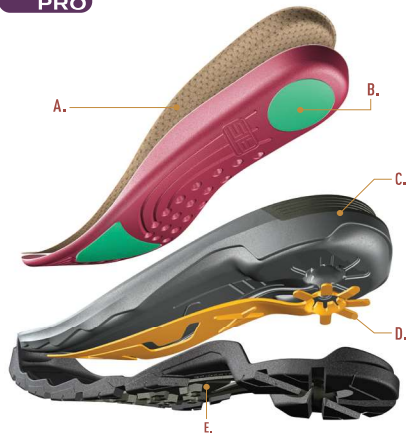

FEATURES

- A.** Cobalt® footbed provides unparalleled fit and comfort
- B.** Cushioning midsole provides superior shock absorption and comfort
- C.** Unique chassis with flexible forefoot protection, shank support and an external, integrated heel counter for supreme stability
- D.** Vibram® outsole, exclusive Ariat design for superior traction in outdoor terrain.

SPIDERTEK® PRO

ACTIVE SUPPORT AND FLEXIBILITY

Our premium footwear technology is engineered to react to force and movement while providing ultimate, anatomical support for unparalleled performance.

FEATURES

- A.** Moisture-wicking anatomical PRO footbed
- B.** Smart Rebound™ dissipates pressure in the forefoot and cushions the heel
- C.** Cushioning midsole
- D.** Innovative chassis engineered for active rebound, stability and protection
- E.** Maximum wear resistance

ATS® PRO

ADVANCED STABILITY WITH SUPERIOR COMFORT

Our mid-level technology with upgraded comfort delivers heightened performance for reliability on the job.

FEATURES

- A.** Moisture-wicking layer delivers comfort and durability with Agion™ technology for intense odour defence
- B.** Full length, anatomically-engineered polyurethane footbed offers superior, long-lasting support
- C.** Smart Rebound™ dissipates pressure in the forefoot and cushions the heel
- D.** Base Layer Air Vents regulate temperature to keep feet cool and comfortable
- E.** Lightweight, composite, forked shank creates superior stability
- F.** Cushioning midsole
- G.** Duratread™ outsole provides maximum wear resistance

ATS®

ATS® ADVANCED STABILITY AND PERFORMANCE

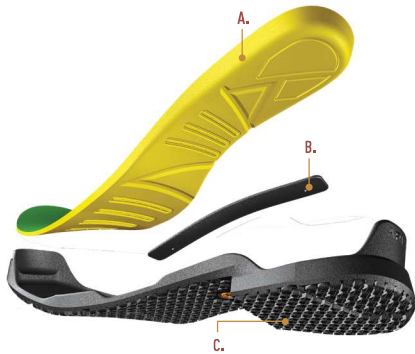

Our mid-level technology offers optimal stability and all-day comfort for performance you can depend on.

FEATURES

- A. Moisture-wicking footbed for comfort
- B. Gel-cushioned footbed with heel stabiliser for shock absorption and support
- C. Lightweight composite forked shank for stability
- D. A variety of outsole options for maximum wear resistance

4LR®

4LR™ EVERYDAY COMFORT AND STABILITY

Our entry level technology offers support and cushioning for everyday wear.

FEATURES

- A. Four-layer footbed for comfort
- B. Lightweight stabilising shank for support
- C. Duratread™ outsole for maximum wear resistance

TECHNOLOGY

DURATREAD™

- / Ariat's exclusive rubber compound
- / Longer-lasting than traditional rubber
- / Provides maximum wear resistance
- / Extremely durable yet flexible
- / Highly resistant to barnyard acids

GORE-TEX®

Premium GORE-TEX® fabric is a waterproof, highly breathable membrane technology. GORE-TEX® products are optimised for comfort and designed to meet the challenges of a wide range of outdoor activities and weather conditions.

3M™ THINSULATE™ ULTRA INSULATION

3M™ Thinsulate™ Ultra Insulation is the highest level of protection available in Ariat® footwear designed for extreme weather conditions. This advanced technology traps air molecules within the fine microfibres of the insulation and contains 400 to 800 grams of 3M™ Thinsulate™ throughout. Thinsulate™ Ultra Insulation is engineered to be thin, lightweight and durable while providing exceptional warmth in cold and damp conditions.

3M™ THINSULATE™ INSULATION

3M™ Thinsulate™ Insulation is used to help keep you warm when it's cold outside. The unique microfibres that make up Thinsulate™ insulation work by trapping air molecules between you and the outside. The more air a material traps in a given space, the better it insulates you from the cold outside air. Because the fibres in Thinsulate™ Insulation are finer than the fibres used in most other synthetic or natural insulation, they trap more air in less space, which naturally makes Thinsulate™ Insulation a better insulator.

SOLARCORE™ AEROGEL

Warmth with less bulk. Comprised of over 90% trapped air, Solarcore™ Aerogel retains body heat and protects from the cold by creating extremely efficient thermal insulation. It's thinner, lightweight and more flexible.

SOLARCORE

U-TURN ENTRY SYSTEM®

Perfect-fitting pull-on boots are now an option for our consumer with wide feet or high arches. Thanks to our patented U-Turn® Entry System (U.S.PATENT NO. 7,980,010), a hidden flexible gore panel in the back of the shaft provides just enough "give" to get feet past the turn with ease. Now feet of all sizes can enjoy pull-on boots without sacrificing a fashionably sleek upper.

X-STATIC®

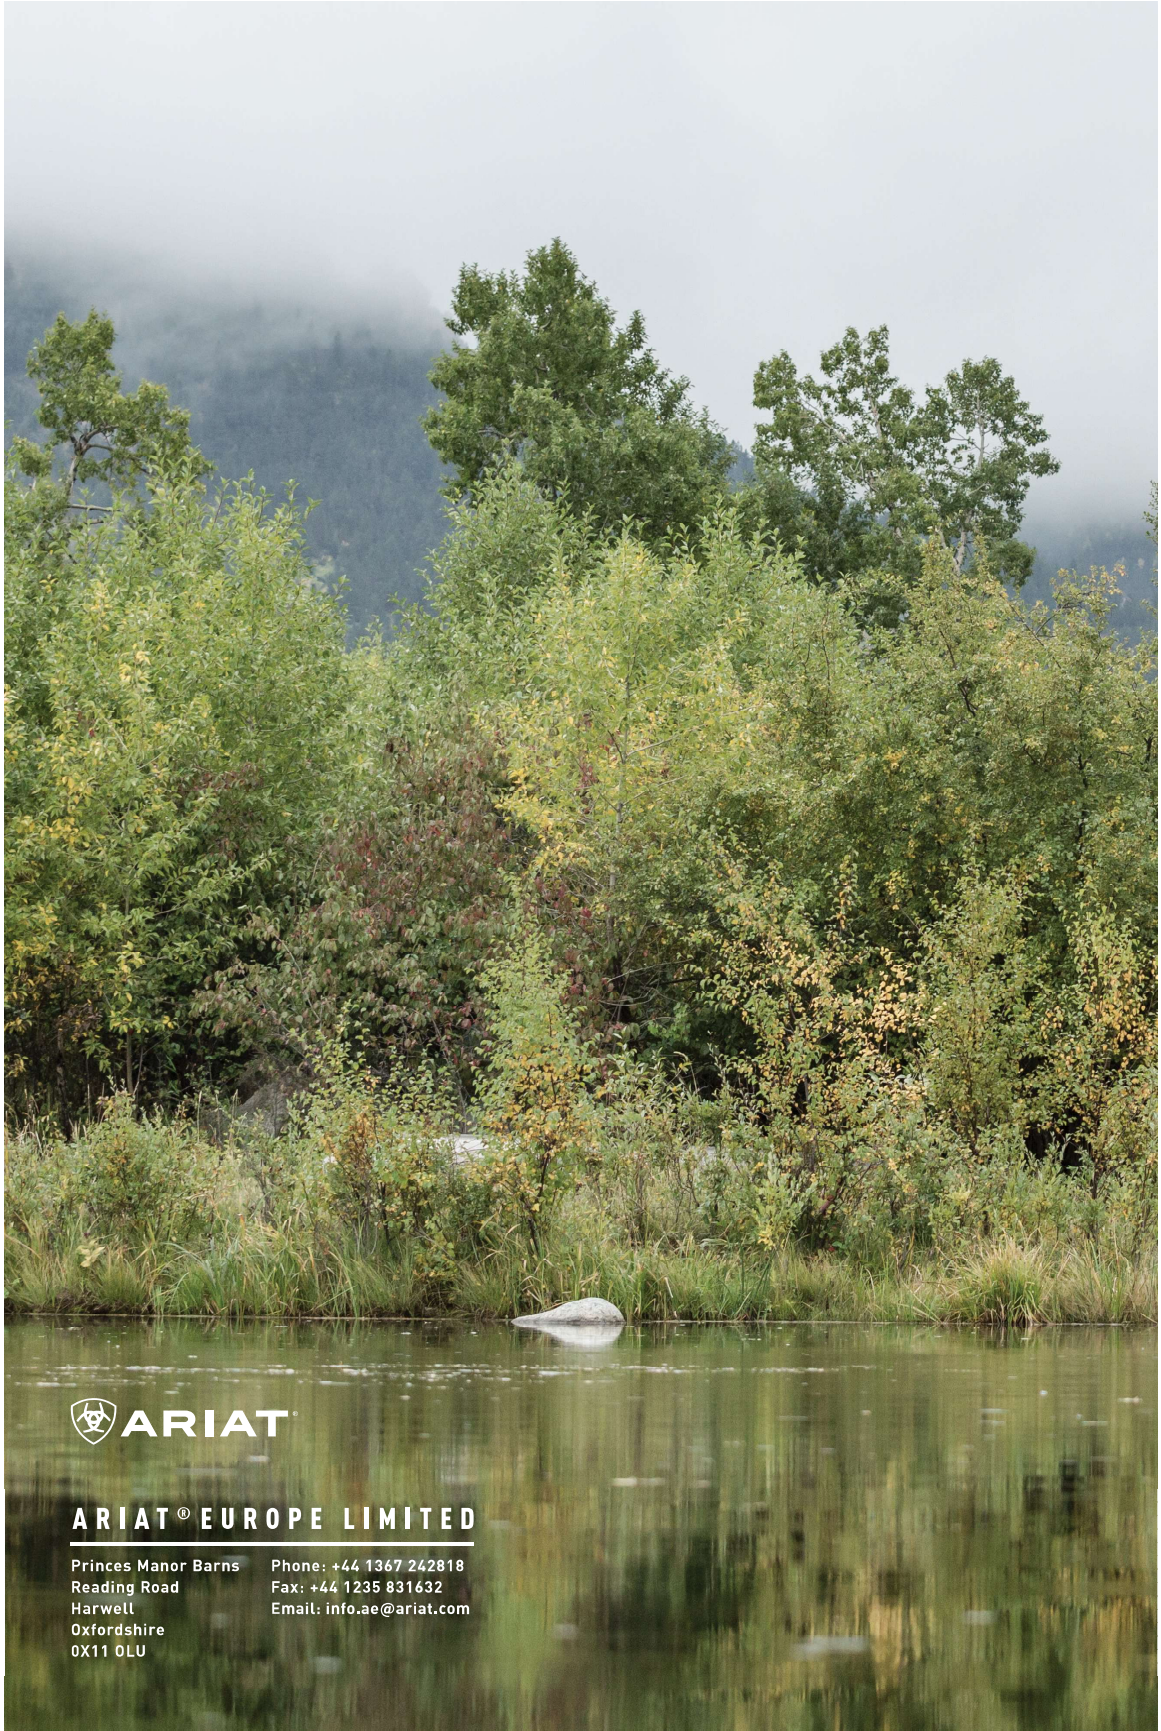

Made with 99.9% pure silver, X-STATIC® enhances products with permanent anti-odour performance. It naturally inhibits the growth of bacteria in apparel and textiles, keeping odours in check and gear smelling fresher. X-STATIC® also has natural temperature regulating properties to keep you performing at your best.

VIBRAM®

Vibram is the world leader in high performance rubber soles. Each Vibram product utilises the latest designs and optimal compounds for its specific use. Ariat's Vibram soles provide a high level of performance in grip and durability.
